ManualCallPoint Jeweller

Wireless resettable button featuring programmable scenarios

Versions:

ManualCallPoint Jeweller enables users to run pre-programmed automation scenarios with a simple press. The button can open

electric locks, cut power to devices, and activate ventilation. In Fire Alarm mode, it triggers fire alarms and security sirens. Addressability ensures accurate tracking of button activations, specifying the time and room. Notifications are promptly sent to system users and CMS. Designed for emergencies, ManualCallPoint Jeweller prioritizes reliability. The button can be reset only using a special tool (key) included in the kit.

Flexibility at the core →●←

- Two operating modes: Scenario Trigger and Fire Alarm
- In-app configuration of programmable actions
- Visual alarm verification using MotionCam detectors or any video camera connected to Ajax NVR
- Alarm delivery to CMS

- Simplified button mechanism reduces the risk of failure
- Up to 7 years of autonomous operation with pre-installed batteries
- Transparent protective lid prevents accidental alarm activation
- Tamper alarm

Smart and complex ecosystem

- Regular polling of the device to display current statuses in apps
- Automatic self-diagnosis with state reporting to the hub
- Up to 1,700 m of wireless communication and twice as much with a range extender
- Instant maintenance notifications

Quick installation and setup

- SmartBracket panel to mount the device: no need to disassemble the enclosure
- Lock to secure the device on SmartBracket
- Special tool (key) to reset the button after alarm
- Pairing with a hub via QR code
- Remote control and configuration in the app

Superior, Fibra, and Baseline product lines are mutually compatible. This opens up numerous possibilities for building systems of any configuration.

Compatibility

Hubs

Hub Plus Jeweller Hub 2 (2G) Jeweller Hub 2 (4G) Jeweller Hub 2 Plus Jeweller Hub Hybrid (2G) Hub Hybrid (4G)

Range extenders ReX ReX 2

Communication with hub

Jeweller communication technology

Frequency bands 866.0-866.5 MHz 868.0-868.6 MHz 868.7-869.2 MHz 905.0-926.5 MHz 915.85-926.5 MHz 921.0-922.0 MHz Depends on the sales region

Communication range up to 1,700 m In an open space

Power supply

Battery 2 × CR123A Pre-installed

Battery life up to 7 years

Installation

Operating temperature range from 0°C to +50°C

Operating humidity up to 80%

Enclosure

Complete set
